

Adebola A. Odeyemi, FCA, CMC

Adebola A. Odeyemi is a seasoned business consultant, data and AI strategy facilitator, and chartered accountant with over a decade of experience driving digital transformation across finance, business, and public sector environments. She is the Lead Consultant at Gem3A Solutions and a key faculty member at A.J. Silicon, where she supports professionals in combining financial expertise with data analytics, artificial intelligence, and emerging technologies.

She has trained hundreds of finance and business professionals across Africa, delivering practical, real-world insights grounded in regulatory expectations and forward-looking business strategy. Adebola is also a passionate mentor, the founder of CARE Mentorship, and a recognised contributor to professional development initiatives through platforms such as the Tony Elumelu Foundation and the MentHer Network.
